1 \$425,000 Siskiyou 02-Sis-96 37.3/37.7	Near Happy Camp, from 1.3 miles east of Doolittle Creek to 1.0 mile west of Benjamin Creek Road. An unstable slope at this location is causing debris, large rocks and boulders to impact the roadway and pose imminent risk to roadway safety. The initial allocation was to remove and dispose of loose debris and construct a cable mesh drapery system. The first supplemental allocation was due to additional excavation following a series of winter storms during construction and an increase in the size of the cable mesh drapery system. The project experienced additional delay during construction due to area wildfires. This second supplemental is required because on October 23, 2014, heavy rains and rockfall severely damaged a portion of the wire mesh drapery already placed on the slope. The slide area has again grown in size and the area to be covered by wire mesh drapery has increased, causing additional cost. Furthermore, work requires repairing the damaged drapery wire mesh.	02-3568 SHOPP/13-14 0214000077 4 4G9404 Emergency	2013-14 302-0042 SHA 20.20.201.130	\$425,000

44 \$136,000 City of Tehachapi <u>Kern COG</u> 09-Ker	Valley Boulevard Bikeway. The project is located in the city of Tehachapi on the south side of Valley Boulevard stretching from 100ft west of Mulberry Street to Curry Street. The project seeks to extend an existing Class I bike path by narrowing an unnecessarily wide pavement section to use the reclaimed space for the bike path. Work includes new curb, gutter and an 8ft wide bike path. Storm drain improvements are necessary to accommodate the changing grades resulting from the construction of the path. (Statewide - ID 0582) (CEQA – NOE, 11/25/2014.) <u>Outcome/Output:</u> This section of Valley Boulevard has an abnormally large pavement width. As such, bicyclists currently utilize a Class II bike lane to move through this area. Constructing this project will provide a safer bicycling corridor.
