Replace Route 91 to northbound Route 71 to loop connector with a direct fly-over connector and construct a collector-distributor system in eastbound direction between the Green River Road and Serfas Club Drive.  <u>Outcome/Outputs:</u> Travel Time: Travel time data from the Freeway Performance Measurement System (PeMS) suggests that it presently takes 9 minutes to travel through this 2 1/2 mile segment. With the project (opening year), travel times are expected to decrease to 4 minutes, a significant savings. The project analysis data was derived through micro-simulation (PARAMICS). Reduced Vehicle Hours of Delay (VHD): The recorded VHD from PeMS suggest that there is approximately 1,692 VHD. Through micro-simulation (with project) it was established that the VHD would reduce significantly to 202 VHD at project opening.	0F5411 08-0077G RIP / 07-08 \$5,273,000 \$0 \$0 \$0	2007-08 801-3093 20.20.075.600	\$5,273,000  \$5,273,000
