

# Vision for State Transportation

---

CHRIS SCHMIDT, CALTRANS DIVISION CHIEF, TRANSPORTATION PLANNING

JOINT MEETING OF THE CALIFORNIA TRANSPORTATION COMMISSION  
AND THE CALIFORNIA AIR RESOURCES BOARD

DECEMBER 4, 2018

# Overview

---

Caltrans Role

Moving in the Right Direction

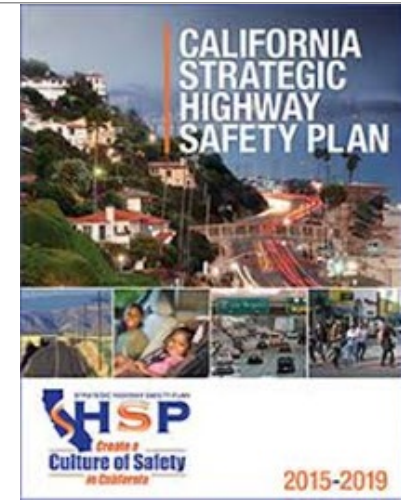

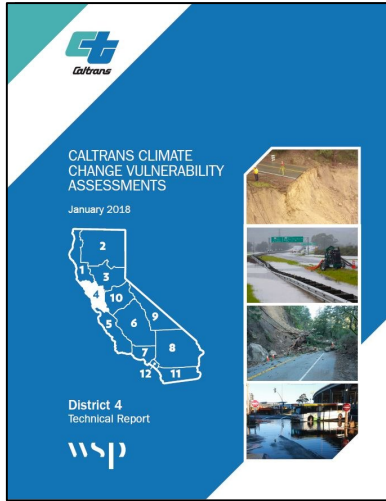

Transportation Planning Funding – Sources & Opportunities

Transportation System Vision

Leveraging What We Have

Fostering Collaboration: California Transportation Plan 2050

Strategic Alignment

# Moving in the Right Direction

---

Adoption of  
SCS's

Expanded active  
transportation

Transit  
Investments

Corridor  
Investments

# Transportation Planning Funding Sources & Opportunities

Annual Planning Funds to Regions

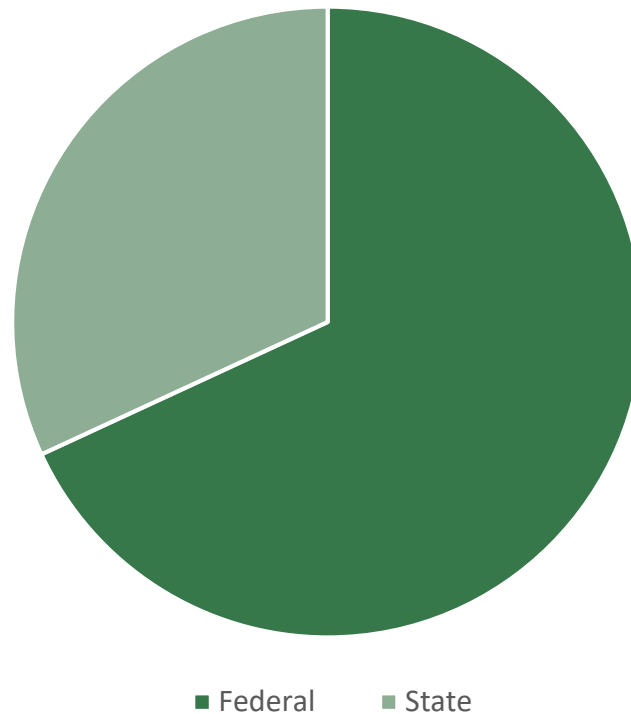

Federal Planning Funds:

**\$63 million** to MPOs

To meet Federal planning requirements, such as RTPs

*Not for State mandates, such as SB 375, SCSs*

Federal Transportation Performance Management requirements

State Planning Funds:

**\$29.5 Million** for MPOs and locals

- \$12.5 M in formula funds to MPOs
- \$17 M in competitive grants

To meet State planning requirements, including SCSs

# SB 1 Transportation Planning Formula Funds Selected MPO Highlights

MPO	Example Uses of SB 1 Formula Funds
Butte County Association of Governments	Add mode choice component to regional transportation model for transit and non-motorized trips.
Metropolitan Transportation Commission	Develop Regional Residential Permit and Housing Policy Database and Website.
Santa Barbara County Association of Governments	Identify multimodal transportation improvements to improve first and last mile connections to rail services.
Southern California Association of Governments	Develop integrated passenger and freight rail forecast, identify future capital improvements for next SCS.
San Joaquin Council of Governments	Identify impediments to transit use to reach job centers, medical appointments, and other key destinations. Recommend multi-modal service improvements.

# Transportation System Vision: Enabling Transportation Choices

---

- Robust well functioning multi-modal transit services
- Extensive Active Transportation Networks
- Efficient, optimized State Highway System

California Transportation Plan 2040  
Vision:

***California's transportation system is safe, sustainable, universally accessible, and globally competitive. It provides reliable and efficient mobility for people, goods, and services, while meeting the State's greenhouse gas emission reduction goals and preserving the unique character of California's communities.***

# Leveraging What We Have

---

Multiple existing partnerships

Research forums

Big data

Collaboration on implementing VMT metric

# Fostering Collaboration

---

## **CALIFORNIA TRANSPORTATION PLAN 2050**

# CTP 2050: Early Framing

## Address New Priorities

- Technology
- Housing
- Equity
- Public health
- Adaptation & resiliency

## Focus on Innovation

- Explore new futures
- Address new challenges
- Identify new strategies

## Rethink Scenario Planning

- What future do we want to see?
- What futures are likely?
- How will we prepare?

# CTP 2050: Schedule

---

## 2018 Vision Development

- Future of Mobility White Paper
- Tribal Listening Sessions
- Public & Stakeholder Engagement

## 2019 Analysis

- Transportation Scenario Development
- Economic & Transportation Modeling
- Technical Reviews

## 2020 Publication

- Draft Document Review
- Public Workshops
- Tribal Webinar
- Final Plan
- Implementation Plan

## 2021 Implementation

- Implement CTP Strategies and Recommendations

# Strategic Alignment

---
