

## MEMORANDUM

To: CHAIR AND COMMISSIONERS  
CALIFORNIA TRANSPORTATION COMMISSION

CTC Meeting: August 14-15, 2019

From: STEVEN KECK, Chief Financial Officer

Reference Number: 3.5, Information Item

Prepared By: Amy Choi, Chief  
Division of Aeronautics

Subject: **FISCAL YEAR 2018–19 - FOURTH QUARTER REPORT-AERONAUTICS  
ACQUISITION AND DEVELOPMENT PROGRAM AND AIRPORT IMPROVEMENT  
PROGRAM**

### **SUMMARY:**

The attached report is the California Department of Transportation's (Department), Division of Aeronautics Fiscal Year 2018–19 Fourth Quarter Report for the Acquisition and Development (A&D) and Airport Improvement Program (AIP) Matching Grants Programs, which will be presented as an informational item at the California Transportation Commission's (Commission) August 2019 meeting.

### **BACKGROUND:**

The Department's A&D and AIP Matching Grants Programs are funded by the Aeronautics Account in the State Transportation Fund. They are prepared in accordance with the California Public Utilities Code (PUC), Sections 21683 and 21706.

Section 21683.20 of the PUC provides that the Department, upon allocation by the Commission, may provide a matching grant to a public entity equal to 5 percent of the amount of a federal AIP Grant. Each year the Commission approves an annual allocation to match AIP grants. This allocation provides the authority for the Department to subvent matching funds to individual projects as requested by airport sponsors.

The Department's A&D Program is a biennial, two-year program providing state grants to airports for planning, construction, and land acquisition. A&D projects are state-funded at 90 percent of the total project cost with a 10 percent local match required. The Department provides the Commission with quarterly reports on the status of all sub-allocations made for state AIP matching grant funds and the status of all projects in the A&D Program. It should be

*“Provide a safe, sustainable, integrated and efficient transportation system  
to enhance California’s economy and livability”*

noted the Aeronautics Account is a continuously appropriated account, and any unused funds would revert to the Aeronautics account for use in future fiscal years.

## **ACQUISITION AND DEVELOPMENT PROGRAM**

### **BACKGROUND**

The California Department of Transportation's (Caltrans) Acquisition and Development (A&D) Grants Program is a biennial, two-year program providing state grants to eligible, publicly owned, public-use airports for planning, construction, and land acquisition. The current A&D Program covers Fiscal Years 2018–19 through 2019–20.

The A&D Program is funded by the Aeronautics Account in the State Transportation Fund. It is prepared in accordance with California Public Utilities Code, Sections 21683 and 21706. Local agency project requests are categorized and ranked based on criteria set by the California Transportation Commission (Commission). Eligible project categories include enhancing safety, capacity, and security, as well as preparing Airport Land Use Compatibility Plans (ALUCP).

A&D projects are State funded at 90 percent of the total project cost with a 10 percent local match required.

### **PROGRAM SUMMARY**

This report is for Caltrans' A&D Program for the Fourth Quarter of the 2018–19 Fiscal Year. This report includes the status of the unallocated, allocated, and completed projects.

There is a total of 31 projects, valued at \$5.0 million, currently programmed in the A&D Program. Of the 31 programmed projects, five have been allocated (valued at \$914 thousand). Five projects were completed this fiscal year. A total of 26 projects have yet to be allocated (valued at \$4.0 million). A fund transfer was not authorized by the Department of Finance for the A&D Program, resulting in 26 projects from the A&D Program to remain unallocated as of this report.

Due to funding shortages, there was no funding capacity available to provide grants to A&D projects during FY 2018-19. The A&D Program is concurrently being amended at the August 2019 Commission meeting to de-program all FY 2018-19 projects.

The following spreadsheets include the status of the A&D Program.

## FEDERAL AIRPORT IMPROVEMENT PROGRAM MATCHING GRANTS

### BACKGROUND:

The California Department of Transportation (Caltrans), Division of Aeronautics' AIP Matching Grants Program (Program) is funded by the Aeronautics Account in the State Transportation Fund. It is prepared in accordance with the California Public Utilities Code (PUC), Sections 21683 and 21706.

Section 21683.1 of the PUC provides that Caltrans, upon allocation by the California Transportation Commission (Commission), may provide a matching grant to a public entity up to five percent of the amount of a federal AIP grant.

Each year the Commission approves a lump sum to match Federal Aviation Administration (FAA) AIP grants. This allocation provides the authority for Caltrans to subvent matching funds to individual projects as requested by airport sponsors.

Caltrans provides the Commission with quarterly reports on the status of all sub-allocations made for State AIP Matching grant funds. It should be noted that the Aeronautics Account is a continuously appropriated account, and any unused funds revert to the Aeronautics Account for use in future fiscal years.

### PROGRAM SUMMARY:

The Department of Finance authorized a \$1.4 million fund transfer for the Fiscal Year 2018-19 AIP Matching Grant Program. At its June 2018 meeting, the Commission allocated the \$1.4 million for the AIP Matching Grant Program for Fiscal Year 2018–19. To assist as many airports as possible, a \$50,000 maximum per project is in effect for the current Program. During FY 2018-19, Caltrans sub-allocated a total of \$807 thousand toward 30 projects. The balance of the funding has been disencumbered and returned to the Aeronautics Account.

The Southern California Logistics project previously displayed in the table below has been deallocated due to ineligibility.
