### ROAD REPAIR AND ACCOUNTABILITY ACT OF 2017

|     | PROJECT BASELINE AGREEMENT  |     |
|-----|---|-----|
|     | Watsonville-Santa Cruz Multimodal Corridor Program  |     |
|     | Resolution SCCP-P-2021-05B, LPP-P-2021-14B  |     |
|     | (will be completed by CTC)  |     |
| 1.  | FUNDING PROGRAM   |     |
|     | Active Transportation Program   |     |
|     |   |     |
|     | Solutions for Congested Corridors Program   |     |
|     | State Highway Operation and Protection Program  |     |
|     | Trade Corridor Enhancement Program  |     |
| 2.  | PARTIES AND DATE  |     |
| 2.1 | This Project Baseline Agreement (Agreement) for the <i>Watsonville-Santa Cruz Multimodal Corridor Program</i> , effective on, June 23, 2021 (will be completed by CTC), is made by and between the California Transportation Commission (Commission), the California Department of Transportation (Caltrans), the Project Applicant, <i>Santa Cruz County Regional Transportation Commission (SCCRTC</i> ), and the Implementing Agency, <i>Caltrans, County of Santa Cruz, and SCCRTC</i> , sometimes collectively referred to as the "Parties". |     |
| 3.  | RECITAL   |     |
| 3.2 | Whereas at its December 2, 2020 meeting the Commission approved the and included in this program of projects the <i>Watsonville-Santa Cruz Multimodal Corridor Program</i> , the parties are entering into this Project Baseline Agreement to document the project cost, schedule, scope and benefits, as detailed on the Project Programming Request Form attached hereto as <u>Exhibit A</u> and the Project Report attached hereto as <u>Exhibit B</u> , as the baseline for project monitoring by the Commission.                             | ,   |
| 3.3 | The undersigned Project Applicant certifies that the funding sources cited are committed and expected to be available; the estimated cost represent full project funding; and the scope and description of benefits is the best estimate possible.  | sts |
| 4.  | GENERAL PROVISIONS  |     |
|     | The Project Applicant, Implementing Agency, and Caltrans agree to abide by the following provisions:  |     |
| 4.1 | To meet the requirements of the Road Repair and Accountability Act of 2017 (Senate Bill [SB] 1, Chapter 5, Statutes of 2017) which provides the first significant, stable, and on-going increase in state transportation funding in more than two decades.  |     |
| 4.2 | To adhere, as applicable, to the provisions of the Commission:  |     |
|     | Resolution <i>Insert Number</i> , "Adoption of Program of Projects for the Active Transportation Program", dated  |     |
|     | Resolution G-20-80, "Adoption of Program of Projects for the Local Partnership Program", dated December 2, 2020   |     |
|     | Resolution G-20-79, "Adoption of Program of Projects for the Solutions for Congested Corridors Program", dated December 2, 2020   |     |
|     | Resolution Insert Number , "Adoption of Program of Projects for the State Highway Operation and Protection Program", dated  |     |

Project Baseline Agreement Page 1 of 3

Resolution Insert Number, "Adoption of Program of Projects for the Trade Corridor Enhancement Program",

dated

- 4.3 All signatories agree to adhere to the Commission's Guidelines. Any conflict between the programs will be resolved at the discretion of the Commission.
- 4.4 All signatories agree to adhere to the Commission's SB 1 Accountability and Transparency Guidelines and policies, and program and project amendment processes.
- 4.5 The SCCRTC and County of Santa Cruz agrees to secure funds for any additional costs of the project.
- 4.6 The SCCRTC and County of Santa Cruz agrees to report to Caltrans on a quarterly basis; after July 2019, reports will be on a semi-annual basis on the progress made toward the implementation of the project, including scope, cost, schedule, outcomes, and anticipated benefits.
- 4.7 Caltrans agrees to prepare program progress reports on a quarterly basis; after July 2019, reports will be on a semi-annual basis and include information appropriate to assess the current state of the overall program and the current status of each project identified in the program report.
- 4.8 The SCCRTC and County of Santa Cruz agrees to submit a timely Completion Report and Final Delivery Report as specified in the Commission's SB 1 Accountability and Transparency Guidelines.
- 4.9 All signatories agree to maintain and make available to the Commission and/or its designated representative, all work related documents, including without limitation engineering, financial and other data, and methodologies and assumptions used in the determination of project benefits during the course of the project, and retain those records for four years from the date of the final closeout of the project. Financial records will be maintained in accordance with Generally Accepted Accounting Principles.
- 4.10 The Transportation Inspector General of the Independent Office of Audits and Investigations has the right to audit the project records, including technical and financial data, of the Department of Transportation, the Project Applicant, the Implementing Agency, and any consultant or sub-consultants at any time during the course of the project and for four years from the date of the final closeout of the project, therefore all project records shall be maintained and made available at the time of request. Audits will be conducted in accordance with Generally Accepted Government Auditing Standards.

### 5. SPECIFIC PROVISIONS AND CONDITIONS

### 5.1 Project Schedule and Cost

See Project Programming Request Form, attached as Exhibit A.

#### 5.2 Project Scope

See Project Report or equivalent, attached as <u>Exhibit B</u>. At a minimum, the attachment shall include the cover page, evidence of approval, executive summary, and a link to or electronic copy of the full document.

### 5.3 Other Project Specific Provisions and Conditions

As previously discussed with CTC staff, performance metrics were analyzed at the corridor level for the three contracts and are reflected in the ePPR for Contract #2.

The lead agency for right-of-way for 0C733 (Contract #2 Bay to State Park) is now SCCRTC. This is different from what was reflected in CTIPs for the STIP and the implementing agency for R/W will be updated at time of vote of STIP funds.

County of Santa Cruz is responsible for securing funding and deadlines for Contract #3 Soquel Drive. SCCRTC is responsible for Contracts #1 & 2.

State Route 1 - State Park to Bay/Porter Auxiliary Lanes

### Location (Project Limits), Description (Scope of Work)

Near Capitola and Aptos, State Route 1 from State Park Drive to Bay/Porter Interchanges. Construct auxiliary lanes between interchanges. Includes reconstruction of the Capitola Avenue overcrossing to accommodate new lanes on State Route 1 and improve bicycle and pedestrian facilities; hybrid bus-on-shoulder/auxiliary lane facility between Bay Ave/Porter St and State Park Dr (total distance 3 miles); bicycle/pedestrian overcrossing of Hwy 1 at Mar Vista Dr with sidewalk, ADA ramps, and intersection improvements at bridge approaches; additional project elements: add emergency pullouts and enforcement areas, sound wall, retaining walls, improved median barrier, lighting, overhead signs, traffic monitoring stations, drainage, and drought-tolerant landscaping

### PROJECT PROGRAMMING REQUEST (PPR)

PRG-0010 (REV 08/2020)

PPR ID ePPR-6149-2020-0001 v3

Date 07/06/2021 17:22:36

### Purpose and Need

**Project Benefits:** 

Improve traffic flow, increase safety, improve travel times and reliability and improve pedestrian/bike access across highway. Heavily traveled over 100,000 vehicles per day. Daily congestion results in by-pass traffic on local arterials.

Purpose and Need:

Reduce congestion, improve safety. Reduce delay and collisions.

Outputs/Outcomes:

SHRC Auxiliary Lane miles constructed: 3.8 (combo of northbound and southbound lanes)

Transit operational improvements

Active Transportation: 1 new bicycle/pedestrian bridge

Bus-on-shoulder facility

### PROJECT PROGRAMMING REQUEST (PPR)

PRG-0010 (REV 08/2020)

PPR ID ePPR-6149-2020-0001 v3

Date 07/06/2021 17:22:36

#### Additional Information

This is one project/contract that is part of the combined Watsonville - Santa Cruz Multimodal Corridor Program Cycle 2 application (ePPR-6149-2020-0005). Project also referred to as "Highway 1 Multimodal Improvements –Bay Avenue/Porter Street to State Park Drive" in the SCCP/LPP Application.

FOR PERFORMANCE INDICATORS AND MEASURES: Performance measures were evaluated for the combined set of measures for all projects within the Cycle 2 proposal and are shown here for all three components of the SCCP/LPP project per CTC direction. Performance measures were not evaluated for the individual projects.

MILESTONES: Month/year of some activities updated to reflect current schedule= 2 months later than previous estimates. End construction and close-out changed based on clarification from Caltrans on end dates to show given required landscape establishment – rather than just mainline construction completion/open to public dates and typical final closeout timing.

OUTPUTS: Updated to reflect 65% design data and clarification how to count different outputs. The exact lengths of auxiliary lanes and ADA improvements are based on 65% design. The noise barriers found reasonable and feasible are included in the project based on the approved Noise Abatement Decision Report (NADR). Four of the 14 walls originally studied did not meet the reasonableness criteria. Pavement lane miles updated to reflect the auxiliary lanes, rather than aux lanes, local road, and bus on shoulder facilities (total 4.6). Bridges-output for replacement Capitola Ave bridge (7475 sqft) previously mistakenly listed as "modified/improved interchanges" not "Local reconstructed bridge/tunnels". The overall benefits provided by the three linked projects remain consistent.

Background: Hwy 1 State Park to Bay/Porter Aux Lanes first programmed and allocated as APDE in the 2018 STIP. Mar Vista Bike/Ped overcrossing (STIP PPNO 1968) was combined with the Aux Lanes/Bus on Shoulders project; the STIP amendment adding Mar Vista bridge to this project (funding and scope) was approved by the CTC at its August 2020 meeting. While the Aux Lanes/bus-on-shoulders and bike/ped overcrossing were originally initiated as separate projects, during the environmental review process the project team determined that the most cost-effective and quickest way to deliver both was to combine the projects.

This is part of the larger Highway 1 Corridor Investment Program - which includes TSM aux lanes, bus-on-shoulders, bike/ped bridges, and HOV lanes from the Highway 1/17 interchange in Santa Cruz to San Andreas Road in south Aptos. The program-level environmental document for the Corridor Program was completed in December 2018.

PURPOSE: To reduce congestion and improve safety for all modes of travel, increase multimodal options to increase corridor throughput, reduce greenhouse gas emissions, improve access for emergency services, promote business development and improve access to housing, jobs, schools, and medical facilities, improve active transportation connectivity, promote livable communities including complete streets.

### NEED:

- •Travel time delays due to congestion on Highway 1 are experienced by commuters, transit, commerce, and emergency vehicles and increases the costs for all users/operators
- •"Cut-through" traffic, or traffic on local streets, occurs and is increasing because drivers seek to avoid congestion on Highway 1. This results in congestion on local streets and decreased safety for active transportation modes
- •Limited opportunities exist for pedestrians and bicyclists to safely travel across Highway 1 within the project corridor
- •There are insufficient incentives to take transit on Highway 1 or Soquel Avenue/Drive because congestion threatens travel time and reliability and there is no priority over auto travel

#### SECTION 1 - All Projects

#### Project Background

2018 RTIP - \$1.8M STIP programmed for pre-construction, combined aux lanes from Bay/Porter-Park and Park-St. Park into one projects, allocated by CTC 8/15/19. 9/3/20: Measure D modified/respread based on updated cost estimates/needs.

8/20: Scope and funding amended by CTC to combine Mar Vista Bike/Ped overcrossing with Aux Lanes.

2019-"bus on shoulders" added to scope.

12/2/20: CTC programmed \$52,837,000 SCCP & \$14,394,000 LPP-C for construction.

### **Programming Change Requested**

At time of vote - Change lead agency for ROW to SCCRTC and combine RIP-STIP ROW and ROW support to ROW capital to be allocated to SCCRTC.

Clarify scope in CTIPs to match SCCP/LPP approved project - includes bus-on-shoulder and Mar Vista bike/ped overcrossing. Updated output and milestones based on current asset performance calculator. RTC began PS&E and ROW at risk using local funds. Construction end and closeout dates updated to reflect 3-year plant establishment period (at time of construction allocation, project team to request more than 36-months to closeout).

Project Outputs were updated to reflect updated design and clarification how to count different outputs, including interchanges (originally Rio Del Mar interchange was erroneously counted as 2). The exact lengths of auxiliary lanes, bike/ped overcrossing and ADA improvements are updated based on the 65% design data. The noise barriers that are found reasonable and feasible are included in the project based on the approved Noise Abatement Decision Report (NADR). Four of the 14 walls originally studied did not meet the reasonableness criteria. The project adds 4.6 miles of roadway lanes including auxiliary lanes and BOS lanes on Highway 1 and Capitola Ave. The aux lanes freeway lane miles are 3.8 mile long in northbound and southbound direction. The overall benefits provided by the three linked projects remain consistent. Change lead for construction from CT's HQ to CT's D5.

### Reason for Proposed Change

Print ePPR for baseline agreement and STIP PS&E and ROW allocations

SCCRTC to take lead on ROW and funds previously programmed as Caltrans ROW Support to be allocated as RTC ROW capital. At time of vote - reflect updated lead agency for ROW (change from CT to SCCRTC), change RIP ROW Sup to ROW capital, and reflect scope/description approved by CTC 8/20 to include Mar Vista bike/ped overcrossing and SCCP/LPP approved project scope.

Minor edits and updates to project milestones and outputs based on current asset performance calculations; updated construction and project end dates to reflect that the contractor will be responsible for 3-year plant establishment.

If proposed change will delay one or more components, clearly explain 1) reason for the delay, 2) cost increase related to the delay, and 3) how cost increase will be funded

- 1) No change to construction year. Environmental review and refined design resulted in updated schedule; Month/year of some activities updated to reflect current schedule= 2 months later than previous estimates. End construction and close out changed based on clarification from Caltrans on what end dates to show given required landscape establishment rather than just mainline construction completion/open to public dates and typical final closeout timing.
- 2) No cost increases anticipated due to delay; RTC initiated PS&E and ROW "at risk" using local funds to expedite delivery;
- 3) any potential increases to be funded by local funds.

### Other Significant Information

Project is funded by a combination of STIP, SCCP, LPP-c, and local funds.

#### SECTION 2 - For SB1 Project Only

Project Amendment Request (Please follow the individual SB1 program guidelines for specific criteria)

At time of vote - Reflect updated lead agency for ROW as SCCRTC, shift ROW Support funds into ROW capital, and reflect updated scope (STIP amendment was approved at August 2020 CTC meeting and is consistent with SCCP/LPP application).

Highway 1, 41st Avenue to Soquel Avenue Auxiliary Lanes, Bus on Shoulder and Chanticleer Bike/Ped Bridge

### Location (Project Limits), Description (Scope of Work)

Near the cities of Santa Cruz and Capitola, on SR1 from 41st Avenue to Soquel Avenue. Construct auxiliary lanes, bus-on-shoulder, and bicycle/pedestrian overcrossing near Chanticleer Avenue.

Aka "Multimodal Improvements - Morrissey Blvd to Bay Ave/Porter St - Contract #1" (SCCP)

Includes hybrid bus-on-shoulder/auxiliary lane facility between Morrissey Blvd and Bay Ave/Porter St (2.75 miles of bus-on-shoulder/aux facilities); Bicycle and pedestrian overcrossing of SR1 at Chanticleer Ave with improvements at bridge approach on coastal side including sidewalk, cycle track, rapid flashing beacon crossing; adds emergency pullouts & enforcement areas, sound wall, retaining walls, ADA accessible ramps, concrete median barrier, lighting, overhead signs, traffic monitoring stations, changeable message sign, drainage improvements, drought-tolerant landscaping.

### PROJECT PROGRAMMING REQUEST (PPR)

PRG-0010 (REV 08/2020)

PPR ID ePPR-6149-2020-0003 v2

Date 07/06/2021 17:20:28

| Purpose and I | √eed |
|---------------|------|
|---------------|------|

Reduce congestion, improve safety.

#### Benefits:

Reduce delay and collisions, improve pedestrian/bike access across highway.

### **Project Benefits:**

Improve traffic flow, increase safety, improve travel times and reliability and improve pedestrian/bike access across highway. Heavily traveled - over 100,000 vehicles per day. Daily congestion results in by-pass traffic on local arteries.

### Outputs/Outcomes:

SHRC Auxiliary Lane miles constructed miles 1.6 (combo of northbound and southbound lanes)

SHRC Pedestrian/bicycle facilities miles constructed: 0.2 miles bridge (POC), 0.3 miles bike lanes on local road, 0.1 miles sidewalk

### PROJECT PROGRAMMING REQUEST (PPR)

PRG-0010 (REV 08/2020)

PPR ID ePPR-6149-2020-0003 v2

Date 07/06/2021 17:20:28

### Additional Information

Project also referred to as: "Highway 1 Multimodal Improvements – Morrissey Boulevard to Bay Avenue/Porter Street (Contract #1)" in the combined Watsonville - Santa Cruz Multimodal Corridor Program Cycle 2 SCCP application (ePPR-6149-2020-0005).

FOR PERFORMANCE INDICATORS AND MEASURES: Consistent with SB1 SCCP/LPP guidelines, performance measures were evaluated for the combined set of measures for the three-part SCCP/LPP Cycle 2 Watsonville - Santa Cruz Multimodal Corridor Program Cycle 2 Project ePPR (ePPR-6149-2020-0005). Per CTC direction, 0 values were entered for the performance indicators in the individual PPRs as performance measures were not evaluated for the individual projects and are also reflected in the ePPR for State Route 1 - State Park to Bay/Porter Auxiliary Lanes (PPNO 0073C).

Caltrans D5 Project Manager is Heidi Borders. heidi.borders@dot.ca.gov, 805-549-3716. Caltrans is the lead for construction. Contact Rachel Moriconi - rmoriconi@sccrtc.org for programming information.

#### SECTION 1 - All Projects

### Project Background

12/2/20: CTC approved \$23,507,000 SCCP for construction. 2020 RTIP & STIP: RTC added \$1,639,608 HIP & \$4,155,000 new STIP for CON/reprogrammed \$759k STIP previously programmed to ROW to CON. 1/30/19: CTC allocated \$2.57M STIP for PS&E (\$2.275M fed, \$295k state) and \$750k for ROW (\$663K fed/\$87k st). 2018 RTIP & STIP: \$2M STIP programmed; \$1.75M STIP approved by CTC 3/18. Project level environmental analysis is part of combined Tier 1/Tier 2 environmental of the Highway 1 Corridor Investment Program (Tier 1-program level; Tier 2=41st-Soquel Aux Lanes).

### **Programming Change Requested**

No change to programming. Updated details, schedule, legislative districts, outputs, lead for construction (from HQ to District 5), and other info which does not require an amendment.

Advance allocation of STIP & SCCP programmed in FY21/22 being requested in June 2021.

### Reason for Proposed Change

Print ePPR for baseline agreement and allocation request.

Edits and updates to project milestones and outputs based on current asset performance calculations. Construction end and closeout dates updated to reflect 3 year plant establishment period.

- -Auxiliary lanes Miles updated to 1.6 based on current design for northbound and southbound directions on Highway 1.
- -Bicycle lane miles updated to 0.3 to reflect bridge overcrossing length.
- -Interchange modifications updated from 4 to 2: Originally each on/off ramp on northbound and southbound sides were counted, but number updated to reflect clarification on performance output metrics that the set of on/off ramps is consider one interchange
- -New curb ramp installed updated from 2 to 4: Four new ADA ramps are being installed with the project
- -Pedestrian Bridge SQFT updated to 11,016 (prev. 10,201) based on final design calculations.
- -Pavement Roadway lane miles increased to 1.6 to reflect final design calculation of auxiliary lane pavement lane miles on Highway 1.

If proposed change will delay one or more components, clearly explain 1) reason for the delay, 2) cost increase related to the delay, and 3) how cost increase will be funded

Schedule updated based on final right-of-way and design dates and anticipated CTC allocation dates. Reviews and right-of-way negotiations took longer than originally anticipated. Increases to right-of-way costs paid for with local funds. Since the contractor will also responsible for 3-year plant establishment, end dates were updated based on input from District 5 staff.

### Other Significant Information

Print ePPR for baseline agreement

### SECTION 2 - For SB1 Project Only

Project Amendment Request (Please follow the individual SB1 program guidelines for specific criteria)

No formal amendments needed, however CTIPs needs updating to reflect some details, including schedule milestones and request at time of vote (construction allocation) that Caltrans be provided with more than 36 months (to 07/01/2027) to closeout the project based on the plant establishment period.

### Approvals

I hereby certify that the above information is complete and accurate and all approvals have been obtained for the processing of this amendment request.

Soquel Drive Buffered Bike Lane and Congestion Mitigation Project (SCCP/LPP Cycle 2, Contract #3)

### Location (Project Limits), Description (Scope of Work)

In the unincorporated area of Santa Cruz County on Soquel Avenue and Soquel Drive between La Fonda Avenue and State Park Drive. Adaptive traffic signal control/transit signal priority at all 23 intersections between La Fonda Ave and State Park Drive.

- •Protected bike lanes with striping/bollards for approximately 2.4 miles (4.8 miles bidirectional) and buffered bike lanes with striping for approximately 2.65 miles (5.3 miles bidirectional)
- •46 green bike boxes at 23 intersections for left turn movements
- •Pedestrian improvements including: 10 rectangular rapid flashing beacons at midblock crossings; 0.46 miles of new curb, gutter, retaining wall and sidewalk construction; 96 crosswalk upgrades, 12 sidewalk curb extensions; 100 ADA ramps; and reconstruction of 17 driveway and side street connections
- •Cape seal of pavement for entire project length

### PROJECT PROGRAMMING REQUEST (PPR)

PRG-0010 (REV 08/2020)

PPR ID ePPR-6149-2020-0004 v1

Date 06/29/2021 16:43:11

### Purpose and Need

PURPOSE: To maximize the efficiency of the existing transportation infrastructure, improve safety for all modes of travel, increase multimodal options to increase corridor throughput, reduce greenhouse gas emissions, improve active transportation connectivity, promote sustainable development and livable communities including complete streets.

#### NEED:

- •Soquel Avenue/Drive is a congested arterial on the inland side of Highway 1, which is limiting access to jobs, housing, schools, and other key destinations
- •Soquel Avenue/Drive has a high rate of collisions, especially for bicyclists and pedestrians
- •Travel time delays due to congestion on Soquel Avenue/Drive are experienced by commuters, transit, commerce, and increases the costs for all users/operators
- •There are insufficient incentives to take transit on Soquel Avenue/Drive because congestion threatens travel time and reliability and there is no priority over auto travel

### PROJECT PROGRAMMING REQUEST (PPR)

PRG-0010 (REV 08/2020)

PPR ID ePPR-6149-2020-0004 v1

Date 06/29/2021 16:43:11

### Additional Information

This is one project/contract that is part of the combined Watsonville - Santa Cruz Multimodal Corridor Program Cycle 2 application.

FOR PERFORMANCE INDICATORS AND MEASURES: Please see Watsonville - Santa Cruz Multimodal Corridor Program Cycle 2 Project ePPR for SCCP/LPP (ePPR-6149-2020-0005). Performance measures were evaluated for the combined set of measures for all projects within the Cycle 2 proposal. Per CTC direction, 0 values were entered in for the performance indicators in the individual PPRs as performance measures were not evaluated for the individual projects.

Santa Cruz County is the lead for implementation of all phases of work. Contact Russell Chen or Matt Machado for additional information - (831)454-2368; russell.chen@santacruzcounty.us or matt.machado@santacruzcounty.us. Rachel Moriconi at SCCRTC is helping with programming - rmoriconi@sccrtc.org.

SECTION 1 - All Projects

**Project Background** 

Programmed for SCCP by CTC 12/21, part of Watsonville-Santa Cruz Multimodal Program

### **Programming Change Requested**

No change to programming, but there are updates to the schedule.

### Reason for Proposed Change

Print ePPR for baseline agreement

Design is more complicated than originally anticipated which is pushing out the schedule a few months, but within previously programmed fiscal years.

If proposed change will delay one or more components, clearly explain 1) reason for the delay, 2) cost increase related to the delay, and 3) how cost increase will be funded

No cost increase anticipated due to delay. Any potential cost increases will be funded by the County of Santa Cruz.

### Other Significant Information

### SECTION 2 - For SB1 Project Only

Project Amendment Request (Please follow the individual SB1 program guidelines for specific criteria)

Minor edits to schedule.

### Approvals

I hereby certify that the above information is complete and accurate and all approvals have been obtained for the processing of this amendment request.

### 1. INTRODUCTION

The California Department of Transportation (Caltrans), in cooperation with the Federal Highway Administration and the Santa Cruz County Regional Transportation Commission (RTC), proposes operational improvements on Route 1 between 41st Avenue and Soquel Drive interchanges in Santa Cruz County. The project site extends approximately 1.4 miles along State Route 1 in Santa Cruz County, between the 41st Avenue and Soquel Drive interchanges. This project proposes to widen State Route 1 by adding auxiliary lanes to the north and southbound sides between the 41st Avenue and Soquel Drive Interchanges (PM13.5-PM14.9). A new bike and pedestrian overcrossing is proposed at Chanticleer Avenue to improve bicycle and pedestrian access across State Route 1. The estimated construction cost of these improvements, including right-of-way, is \$24.0 million. Rightof-way would be acquired for the construction of the bike and pedestrian overcrossing approach ramps. The project is proposed to be funded from the Measure D, Santa Cruz County Regional Transportation Commission's Regional Surface Transportation Program (RSTP), State Transportation Improvement Program (STIP), and Regional Improvement Program (RIP) funds over 4 years. PS&E for this project will be developed under EA 05-0C732.

This is a Project Development Category 4B type project, because it does not require substantial new right of way and does not substantially increase traffic capacity.

Environmental analysis and documentation for this project is found in the Tier I/Tier II Draft Environmental Impact Report / Environmental Assessment (DEIR/EA) (Attachment G) entitled, "Santa Cruz Route 1 HOV Tier I Corridor Analysis of High Occupancy Vehicle (HOV) Lanes and Transportation System Management (TSM) Alternatives and Tier II Build Project Analysis, 41st Avenue to Soquel Avenue/Drive Auxiliary Lanes and Chanticleer Avenue Pedestrian Overcrossing", which will identify a Tier I preferred alternative for a "program" of future construction projects to be implemented within the 8.9 mile corridor over multiple years. This Project Report is for the Tier II project of the title and is analyzed at a project level in the EIR/EA. Future Tier II projects will go through their own project approval and environmental clearance process with their own Project Report and Environmental Document when the scope is determined and funds become available.

The two alternatives; a No Build and the Auxiliary Lane Alternative were considered. After public circulation period, all comments were considered and Caltrans and the Federal Highway Administration selected the auxiliary lane project as the preferred Tier II alternative. Construction is assumed to begin in 2020.

| <b>Project Development Category</b>             | 4B  |  |

### 2. RECOMMENDATION

It is recommended that the project be approved and advanced to the PS&E phase of project development for the build alternative.

The proposed project has the support of Caltrans, Santa Cruz County, Santa Cruz County Regional Transportation Commission (RTC) and City of Capitola. It is recommended that a cooperative agreement for the Plan, Specifications and Estimate (PS&E) phase be negotiated with the RTC, and that the County/State cooperative storm drain features be approved and an agreement be negotiated with the County of Santa Cruz during the PS&E phase.

### 3. BACKGROUND

## 3.1 Project History

This project originated as a Santa Cruz County State Route 1 corridor improvement project. The study segment is heavily congested during morning and evening commute times. The congestion has extended the peak operating hours to approximately 4 hours for morning and evening commutes. Summer weekends have been especially impacted as increasing tourist traffic compounds the local congestion.

#### 1. INTRODUCTION

## **Project Description:**

The California Department of Transportation (Caltrans) in cooperation with the Santa Cruz County Regional Transportation Commission (SCCRTC), the County of Santa Cruz, and the City of Capitola, propose to widen State Route (SR) 1 to include auxiliary lanes and to accommodate bus on shoulder (BOS) operations between the State Park Drive and Bay Avenue/Porter Street interchanges, replace the Capitola Avenue Overcrossing, and construct a new pedestrian and bicycle overcrossing (POC) at Mar Vista Drive.

One build alternative and the no-build are proposed for further consideration. The build alternative estimated total escalated capital cost (including support, construction, and right-of-way) is \$89.7 million. See table below for the cost estimate break.

## FEDERAL HIGHWAY ADMINISTRATION FINDING OF NO SIGNIFICANT IMPACT (FONSI)

FOR

TIER I – CORRIDOR ANALYSIS OF
HIGH OCCUPANCY VEHICLE (HOV) LANES
AND TRANSPORTATION SYSTEM MANAGEMENT ALTERNATIVES
AND

TIER II – BUILD PROJECT ANALYSIS OF
41ST AVENUE TO SOQUEL AVENUE/DRIVE AUXILIARY LANES AND CHANTICLEER AVENUE
PEDESTRIAN-BICYCLE OVERCROSSING

The Federal Highway Administration has determined that the Tier I Corridor HOV Lane Alternative and the Tier II build alternative will have no significant impact on the human or natural environment. This finding is based on the attached Environmental Assessment, coordination with local and Federal agencies, public involvement, and applicable laws, executive orders, and regulations. The Environmental Assessment, with revisions contained herein, adequately and accurately discuss the need, environmental issues, and impacts of the proposed project and appropriate mitigation measures. It lists environmental commitments to be carried out by the Federal Highway Administration in order to minimize unavoidable impacts. It provides sufficient evidence and analysis for determining that an Environmental Impact Statement is not required. The Federal Highway Administration takes full responsibility for the accuracy, scope, and content of the attached Environmental Assessment.

## CALIFORNIA DEPARTMENT OF TRANSPORTATION FINDING OF NO SIGNIFICANT IMPACT (FONSI)

#### **FOR**

The State Route 1 Auxiliary Lanes Project on State Route 1 in Santa Cruz
County and the City of Capitola between State Park Drive and Bay
Avenue/Porter Street

The California Department of Transportation (Caltrans) has determined that the Build Alternative will have no significant impact on the human environment. This Finding of No Significant Impact is based on the attached Environmental Assessment which has been independently evaluated by Caltrans and determined to adequately and accurately discuss the need, environmental issues, and impacts of the proposed project, as well as appropriate mitigation measures. It provides sufficient evidence and analysis for determining that an Environmental Impact Statement is not required. Caltrans takes full responsibility for the accuracy, scope, and content of the attached Environmental Assessment.

The environmental review, consultation, and any other actions required by applicable Federal environmental laws for this project are being, or have been, carried out by Caltrans pursuant to 23 U.S. Code 327 and the Memorandum of Understanding dated December 23, 2016 and executed by the Federal Highway Administration and Caltrans.

### PLANNING DEPARTMENT

701 OCEAN STREET, 4TH FLOOR, SANTA CRUZ, CA 95060 (831) 454-2580 FAX: (831) 454-2131 TDD: (831) 454-2123 KATHLEEN MOLLOY PREVISICH, PLANNING DIRECTOR www.sccoplanning.com

#### NOTICE OF EXEMPTION

To: Clerk of the Board Attn: Susan Galloway 701 Ocean Street, Room 500 Santa Cruz, CA 95060

**Project Name:** 

Soquel Drive Buffered Bike Lane and Congestion Mitigation Project

**Project Location:** 

This project is located along Soquel Drive between La Fonda Avenue and State Park Drive.

Assessor Parcel No.: Public ROW

**Project Applicant:** 

Santa Cruz County Department of Public Works

Project Description: The proposed project involves improvements to Soquel Drive between La Fonda Avenue and State Park Drive to address traffic safety, improve the use of multi-modal mobility, reduce traffic congestion, and decrease the incidence of collisions along this roadway. Project construction will include resurfacing the roadway (cape seal) and installing new striping on Soquel Drive to reduce the widths of the travel lanes and construct buffered bike lanes. The project will also include traffic signal upgrades at certain intersections for installation of Adaptive Traffic Signals - bicycle signal heads with push button actuation and Traffic Signal Priority for the SCMTD bus, and will complete discontinued sidewalks, enhance pedestrian crossings with the installation of Rectangular Rapid Flashing Beacon, and upgrade ADA ramps to current standards.

Agency Approving Project:

County of Santa Cruz

**County Contact:** 

Russell Chen

Telephone No. 831-454-2160

**Date Completed:** 

9/18/2019

This is to advise that the County of Santa Cruz has found the project to be exempt from CEQA under the following criteria:

| Exempt status: (check one)   |
|--|
| <ul> <li>□ The proposed activity is not a project under CEQA Guidelines Section 15378.</li> <li>□ The proposed activity is not subject to CEQA as specified under CEQA Guidelines Section 15060 (c).</li> <li>□ The proposed activity is exempt from CEQA as specified under CEQA Guidelines Section 15061(b)(3).</li> <li>□ Ministerial Project involving only the use of fixed standards or objective measurements without personal</li> </ul> |
| iudgment.  Statutory Exemption other than a Ministerial Project (CEQA Guidelines Section 15260 to 15285).  |
| 15282(j). Restriping to relieve traffic congestion   |
|  |

15301 (c)(f) Class 1. Existing Facilities

#### Reasons why the project is exempt:

The project involves restriping a street with the purpose of relieving traffic congestion and repair and maintenance of existing public facilities for the purpose of improving public safety and involves no expansion of the existing use.
