

# California Road Charge Pilot Program

Curtis Vandermolen

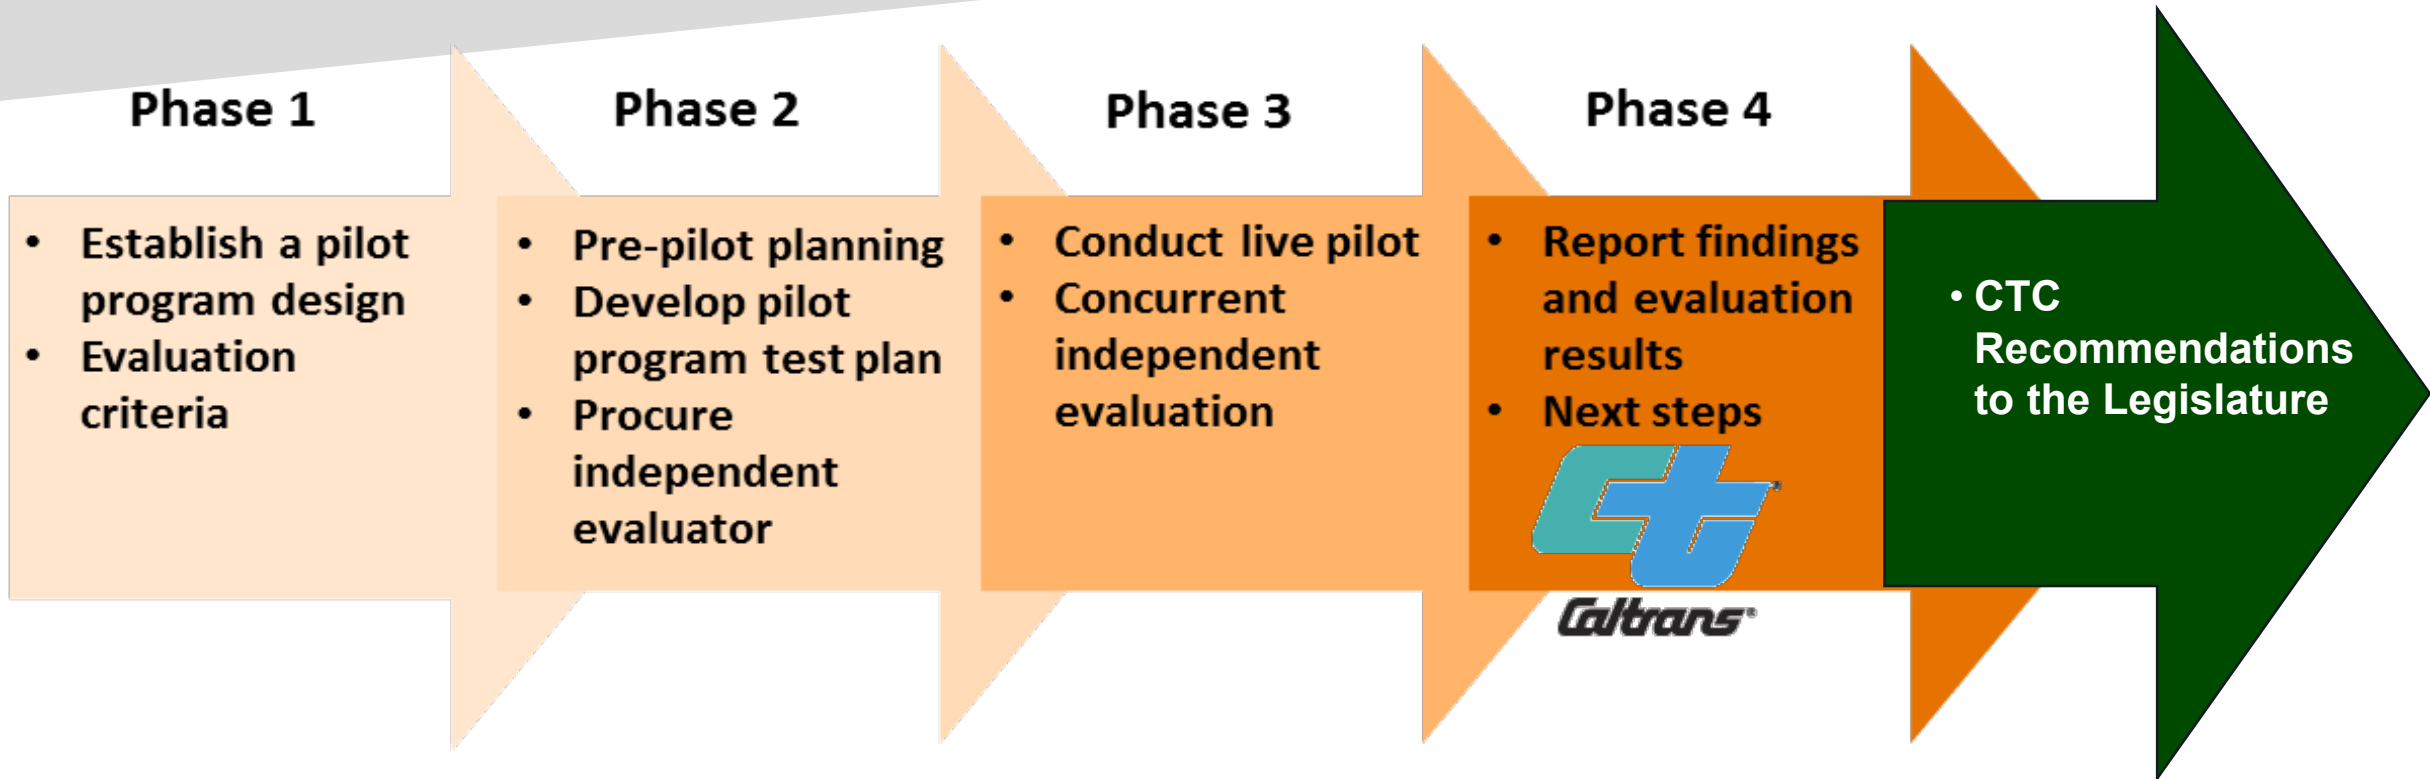

Deputy Director

California Transportation Commission

June 28, 2017

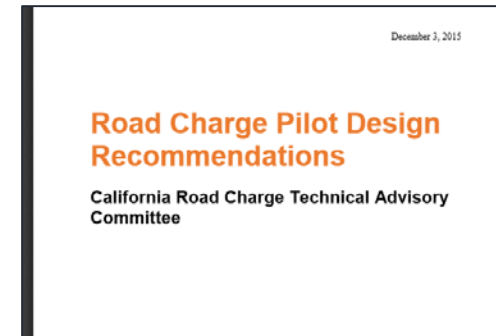

# Pilot Schedule

# Next Steps

- CTC Road Charge TAC met on May 19 to discuss a variety of policy implications and possible recommendations.
- Transportation Agency is expected to issue a report on its findings in July.
- **CTC Road Charge TAC will meet on July 21 to focus on recommendations.**
- CTC is expected to include the final Road Charge report with recommendations to the Legislature in its annual report in December.

# Final Report Policy Perspectives

# Other Agency Efforts

- Caltrans will study a pay-at-the-pump and pay-at-the-charging-station method of mileage reporting using federal FAST Act funds.
  - Round 1 FAST Act - \$750,000
  - Round 2 FAST Act – Applications were due June 12
- Washington State will begin a 12-month pilot in January 2018.
- The I-95 Corridor Coalition have conducted two phases of study. Two withdrawn, but the effort continues with reduced funding.
- 14 western states participating in RUC West coalition (through Caltrans).
  - Finalizing a report on impacts for rural drivers.
